## SOURCE

A carpenter employed at the FINOW (N 53/V 08) airfield stated on 24 August 1949 that a concrete runway was under construction at the field, which was being expanded to the west as far as the autobahn.

25X1A

The stated expansion of the FINOW airfield seems to be exaggerated since in this case it "would be brought to an E-W extension of about 13,200 feet. From available information it is assumed that the concrete E-W runway will be extended to a length of about 6,600 feet.
